LB 1126

the committee amendments, the amendments offered by Senator Warner. The question has been divided that way. Is there further discussion? Senator Kahle.

SENATOR KAHLE: Mr. President, members of the body, I certainly support amendments one and two as Senator Warner has explained. It will help some of the management problems in agriculture. You may wonder why with all the tech schools and the state colleges and the University why we need to help young farmers do their bookwork but I think that is one of the biggest problems we have in agriculture today is that many of the people in it do not understand how to work up a flow sheet of capital and a whole lot of other things that we must have if we are going to stay in business today in agriculture. So I would just lend my support to that one particular portion of this particular bill and I am still trying to get the understanding of what Senator Warner is attempting to do with the other portions, so I would lend my assistance to that particular part of this bill.

PRESIDENT: May the Chair make it clear that...Mr. Clerk, what Senator Johnson was just discussing, the \$100,000, is
